

5 **MULTI-SHELLED APPLIQUÉ, INSTALLATION TEMPLATE, AND
METHOD OF TRIAL POSITIONING**

ABSTRACT OF THE DISCLOSURE

10 An appliqué is described, as well as a method for mounting it, and a template
for accurately placing it in any number of trial locations and a final location. An
appliqué is described having a base shell, an outer shell, and one or more
intermediate shells. Bases on the outer shell may be connected using shell fasteners
to corresponding landings on the base shell. Footings on the base shell may be
15 fastened to a wall using wall fasteners. A template is described for use in placing an
appliqué in any number of trial locations on a surface. A method of using a template
is disclosed for placing an appliqué in trial locations and in a final location. The
template may be part of a consumer package enclosing an appliqué. This Abstract is
provided to comply with the rules, which require an abstract to quickly inform a
20 searcher or other reader about the subject matter of the application. This Abstract is
submitted with the understanding that it will not be used to interpret or limit the
scope or meaning of the claims.
